

What colostrum should I use, and what's the difference?

Calf's Choice Total® Gold

Supplement or full replacer with one ingredient: Bovine Colostrum

Instant mix with whisk in 20 seconds using granulator technology

Available in easy to use, single dose packaging (three bags offer 180 IgG)

Source: Natural Bovine Colostrum

Fat Source: Colostral Fat

USDA veterinary biologic licensed as an aid in the treatment of failure of passive transfer

Use as an immunity boost to supplement maternal colostrum.

Calf's Choice Total® HiCal Colostrum

Supplement or full replacer with one ingredient: Bovine Colostrum

Instant mix with whisk in 20 seconds using granulator technology

Available in two forms:

1. Easy to use, single dose packaging (two bags offer 200 IgG for excellent passive transfer)
2. Bulk pail with convenient scoop to measure amount of IgG (six scoops offer 200 IgG for excellent passive transfer)

Source: Natural Bovine Colostrum

Fat Source: Colostral Fat

USDA veterinary biologic licensed as an aid in the treatment of failure of passive transfer

Not only supports immunity but also provides an energy boost in harsh weather conditions.
