

RePopPlus™

Direct-Fed Microbial *Capsules and paste for cows*

A source of beneficial microbials and live yeast to help repopulate and support a healthy gut during freshening, shipping and receiving, and acute health challenges.

Key Benefits

- A natural supplement that includes probiotics, live (viable) yeast and mannan-oligosaccharides (MOS) to support gut health and a productive lactation.
- Can be used as a proactive approach to support a healthy and productive lactation by establishing a healthy microbial balance and promoting rumen efficiencies.
- Effective combination build supported by research, trusted components and providers.

Capsule Ingredients

- Active Dried Yeast (*Saccharomyces cerevisiae*)
- Dried *Lactobacillus acidophilus* Fermentation Product
- Dried *Enterococcus faecium* Fermentation Product
- Dried *Lactococcus lactis* Fermentation Product
- Hydrolyzed Yeast
- Yeast Culture
- Rice Hulls
- Sodium Aluminosilicate
- Vitamin A Acetate
- Vitamin E Supplement
- Vitamin B12 Supplement
- Niacin
- Thiamine Mononitrate

Paste Ingredients

- Active Dried Yeast (*Saccharomyces cerevisiae*)
- Dried *Lactobacillus acidophilus* Fermentation Product
- Dried *Enterococcus faecium* Fermentation Product
- Dried *Lactococcus lactis* Fermentation Product
- Vitamin A Acetate
- Vitamin E Supplement
- Vitamin B12 Supplement
- Niacin
- Thiamine Mononitrate
- Soybean Oil
- Hydrolyzed Yeast
- Silicon Dioxide
- Lecithin
- Sucrose

Feeding Directions

For capsules: Administer one capsule per head daily for days 1-2 at freshening, weather changes and other challenges. Repeat as needed. Administer one capsule per head daily for days 1-3 for first calf heifers at freshening, shipping and receiving or following antibiotic treatment. Repeat as needed. Capsule may be given with a balling gun. Each 15g capsule provides 129 billion CFU (colony forming units) lactic acid bacteria and live yeast cells.

For paste: Administer 30ml of paste per head daily at freshening or shipping and receiving. Administer 60ml of paste following antibiotic therapy and post-surgery. Each 30ml of paste provides 129 billion CFU (colony forming units) lactic acid bacteria and live yeast cells.

Capsules

Package Options	Number of Doses
28-count jar (6385)	28
250-count pail (6386)	250

Paste

Package Options	Number of Doses
280ml tube (6387)	9.333 30ml doses
Box of 6 tubes containing 280ml of paste each (6387)	56 30ml doses
